

## Polypropylene ESV200

Version 1.02 Revision Date 01.12.2017

### SECTION 1. Identification of the substance/mixture and of the company/undertaking

**Product identifier** 

Trade name Polypropylene ESV200

Synonyms Polypropylene, Propylene Polymer, Propene Polymer, 1-

Propene, Polymers with Ethene.

Relevant identified uses of the substance or mixture and uses advised against

**Use** Applications in the food industry. Polymer for extrusion,

injection moulding, blow moulding & thermoforming

applications.

Manufacturer or supplier's details

Company Sasol Chemicals, a division of Sasol South Africa (Pty) Ltd

Address Sasol Place, 50 Katherine Street

Sandton 2090

South Africa

Telephone +27103445000

E-mail address sasolchem.info.sa@sasol.com

Emergency telephone number +44 (0)1235 239 670 (Europe, Israel, Africa, Americas)

+44(0)1235 239 671 (Middle East, Arabic African countries)

+65 3158 1074 (Asia Pacific)

+86 10 5100 3039 (China)

+27 (0)17 610 4444 (South Africa)

+61 (2) 8014 4558 (Australia)

## Polypropylene ESV200

Version 1.02 Revision Date 01.12.2017

### SECTION 2. Hazards identification

#### Classification of the substance or mixture

South Africa. GHS Classification and Labelling of Chemicals - SANS 10234

Classification This substance is not classified as hazardous according to GHS.

Label elements

Pictogram Not applicable

Signal word Not applicable

**Hazard statements** This substance is not classified as hazardous according to GHS.

#### **Precautionary statements**

Prevention This substance is not classified as hazardous according to GHS.

Response This substance is not classified as hazardous according to GHS.

Storage This substance is not classified as hazardous according to GHS.

Disposal This substance is not classified as hazardous according to GHS.

Other hazards May form combustible dust concentrations in air (during processing).

## SECTION 3. Composition/information on ingredients

Substance

ethylene propylene copolymer

Contents: >= 99.00 - <= 100.00 %W/W

Print Date 11.12.2017 100000011451 2/10

## Polypropylene ESV200

Version 1.02 Revision Date 01.12.2017

**CAS-No.** 9010-79-1 **Index-No. EC-No.** 

For the full text of the H-Statements mentioned in this Section, see Section 16.

#### SECTION 4. First aid measures

#### Description of necessary first-aid measures

**Inhalation** Product does not release fumes at ambient temperatures. If

exposed to fumes from heated polymer move to fresh air

environment.

Skin contact At room temperature the product is not considered harmful

when in contact with skin. In case of skin contact with molten polymer immediately submerse the affected area in cold water

to cool down polymer.

Eye contact At room temperature the product is not considered hazardous

in contact with eyes. In case of eye contact with molten polymer, cool under running water for 3-5 minutes. Do not attempt to remove molten polymer. Get medical attention

immediately.

Ingestion At room temperature the product is not considered harmful

when swallowed.

Most important symptoms/effects, acute and delayed

Refer to SECTION 11

### SECTION 5. Firefighting measures

Print Date 11.12.2017 **100000011451** 3/10

## Polypropylene ESV200

Version 1.02 Revision Date 01.12.2017

Suitable extinguishing

Dry chemical. Carbon dioxide (CO2). Water spray.

media

Special hazards arising

Substance evolves toxic gases when burned.

from the substance or

mixture

Special protective

Wear self-contained breathing apparatus and protective suit.

equipment for firefighters

#### SECTION 6. Accidental release measures

**Environmental precautions** No special environmental precautions required.

**Methods for cleaning up** Shovel into suitable container for disposal.

Reference to other sections Refer to Section 8 and 13

### SECTION 7. Handling and storage

Safe handling advice No special handling advice required under normal conditions.

Molten polymer: Wear heat-resistant protective equipment.

Advice on protection

Keep away from heat and sources of ignition.

against fire and explosion

Requirements for storage

Keep away from direct sunlight. Keep away from heat.

areas and containers

Advice on common storage Keep in a cool, well-ventilated place.

Print Date 11.12.2017 100000011451 4/10

## Polypropylene ESV200

Version 1.02 Revision Date 01.12.2017

### SECTION 8. Exposure controls/personal protection

#### Components with workplace control parameters

#### NATIONAL OCCUPATIONAL EXPOSURE LIMITS

Contains no substances with occupational exposure limit values.

#### **Exposure controls**

#### **Engineering measures**

If user operations generate dust, fumes or mists, use ventilation to keep exposure to airborne contaminants below the exposure limit.

Use only in an area equipped with explosion proof exhaust ventilation.

The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits.

Ensure adequate ventilation.

#### Personal protective equipment

**Respiratory protection** No personal respiratory protective equipment normally

required. In the case of respirable dust and/or fumes, use self-

contained breathing apparatus.

**Hand protection** No hand protection required under normal conditions. Molten

polymer: Wear heat-resistant gloves.

**Eye protection** No eye protection is required under normal conditions. Molten

polymer: Wear safety glasses with side shields.

**Skin and body protection** No special body protection is required under normal conditions.

Molten polymer: Wear heat-resistant protective clothing.

## SECTION 9. Physical and chemical properties

#### Information on basic physical and chemical properties

Form Solid form

State of matter Solid

Colour Translucent to white

Odour None to slightly waxy

**Odour Threshold** No data available

pН No data available

130 - 165 ° C Melting point/range

> 350 ° C; open cup Flash point

**Evaporation rate** No data available

Flammability (solid, gas) No data available

> 390 ° C Auto-ignition temperature

Lower explosion limit No data available

Upper explosion limit No data available

Vapour pressure No data available

Relative vapour density No data available

**Density** 0.88 - 0.92 g/cm3

Water solubility Insoluble

Partition coefficient: n-

No data available

octanol/water

## Polypropylene ESV200

Version 1.02 Revision Date 01.12.2017

Viscosity, kinematic No data available

## SECTION 10. Stability and reactivity

**Reactivity** Stable under normal conditions. Continous heating above 160

°C will lead to thermal oxidation.

**Chemical stability** Stable under recommended storage conditions.

Possibility of hazardous

reactions

Strong oxidizing agents

Conditions to avoid Heat, flames and sparks.

Materials to avoid Oxidizing agents.

Hazardous decomposition

Carbon dioxide (CO2). Carbon monoxide Acrolein. formaldehyde-

products

like

## SECTION 11. Toxicological information

Skin contact Molten polymer can cause severe burns in contact with skin

and eyes.

Further Information No data available

## SECTION 12. Ecological information

Other adverse effects No data available

Print Date 11.12.2017 **100000011451** 7/10

## Polypropylene ESV200

Version 1.02 Revision Date 01.12.2017

### **SECTION 13. Disposal considerations**

Product Disposal should be in accordance with local, regional and

national legislations.

### SECTION 14. Transport information

Further Information Not classified as dangerous in the meaning of transport

regulations.

### SECTION 15. Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

#### SECTION 16. Other information

#### Full text of H-Statements.

(IECSC)

This substance contains no components with H-statement.

All reasonable efforts were exercised to compile this SDS in accordance with the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). The SDS only provides information regarding the health, safety and environmental hazards at the date of issue, to facilitate the safe receipt, use and handling of this product in the workplace and does not replace any product information or product specifications. Since Sasol and its subsidiaries cannot anticipate or control all conditions under which this product may be handled, used and received in the workplace, it remains the obligation of each user, receiver or handler to, prior to usage, review this SDS in the context within which this product will be received, handled or used in the workplace. The user, handler or receiver must ensure that the necessary mitigating measures are in place with respect to health and safety. This does not substitute the need or requirement for any relevant risk assessments to be conducted. It further remains the responsibility of the receiver, handler or user to communicate such information to all relevant parties that may be involved in the receipt, use or handling of this product.

Print Date 11.12.2017 100000011451 9/10

## Polypropylene ESV200

Version 1.02

Revision Date 01.12.2017

Although all reasonable efforts were exercised in the compilation of this SDS, Sasol does not expressly warrant the accuracy of, or assume any liability for incomplete information contained herein or any advice given. When this product is sold, risk passes to the purchaser in accordance with the specific terms and conditions of sale.
