

Polypropylene ESV265

Version 1.00

Revision Date 23.03.2016

Safety Data Sheet

SECTION 1 Identification of the substance/mixture and of the company/undertaking

Trade name	Polypropylene ESV265		
Synonyms	Polypropylene, Propylene Polymer, Propene Polymer, 1-Propene, Polymers with Ethene.		
Use	Applications in the food industry. Polymer for extrusion, injection moulding, blow moulding & thermoforming applications.		
Company	Sasol Chemicals, a division of Sasol South Africa (Pty) Ltd Sasol Place, 50 Katherine Street Sandton 2090 South Africa +27103445000		
Telephone	CHEMTREC North America Transport Emergency (24-hr)	(800) 424-9300	
	CHEMTREC World Wide Transport Emergency (24-hr)	(703) 527-3887	
	MSDS and Product Information (8:00am-4:30pm CST)	(281) 588-3315	
	Sasol LCCC Main Gate Guard	(337) 494-5142	
E-mail address	SasolElectronicSDS@us.sasol.com		

SECTION 2 Hazards identification

Classification of the substance or mixture

Classification	According to OSHA 29 CFR 1910.1200 HCS
	This substance is not classified as hazardous according to GHS.

Label elements

Revision date 23.03.2016	Version 1.00	Print Date: 12.12.2017	Page 1 of 10
--------------------------	--------------	------------------------	--------------

Polypropylene ESV265

Version 1.00

Revision Date 23.03.2016

Pictogram	Not applicable
Signal word	Not applicable
Hazard statements	This substance is not classified as hazardous according to GHS.
Precautionary Statement - Prevention	This substance is not classified as hazardous according to GHS.
Precautionary Statement - Response	This substance is not classified as hazardous according to GHS.
Precautionary Statement - Storage	This substance is not classified as hazardous according to GHS.
Precautionary Statement - Disposal	This substance is not classified as hazardous according to GHS.
Other hazards	May form combustible dust concentrations in air (during processing).

SECTION 3 Composition/information on ingredients

<u>Components</u>	<u>CAS-No.</u>	<u>Weight percent</u>
ethylene propylene copolymer	9010-79-1	>= 99.00 - <= 100.00

Exposure limit(s): See chapter 8

Classification and hazard labelling: See chapter 15

SECTION 4 First aid measures

Eye contact At room temperature the product is not considered hazardous in contact with eyes. In case of eye contact with molten polymer, cool under running water for 3-5 minutes. Do not attempt to remove molten polymer. Get medical attention immediately.

Revision date 23.03.2016	Version 1.00	Print Date: 12.12.2017	Page 2 of 10
--------------------------	--------------	------------------------	--------------

Polypropylene ESV265

Version 1.00

Revision Date 23.03.2016

Skin contact At room temperature the product is not considered harmful when in contact with skin.
In case of skin contact with molten polymer immediately submerge the affected area in cold water to cool down polymer.

Inhalation Product does not release fumes at ambient temperatures. If exposed to fumes from heated polymer move to fresh air environment.

Ingestion At room temperature the product is not considered harmful when swallowed.

SECTION 5 Firefighting measures

Fire/explosion Substance evolves toxic gases when burned.

Hazardous combustion products Carbon dioxide (CO₂). Carbon monoxide. Acrolein formaldehyde-like

Suitable extinguishing media Dry chemical.
Carbon dioxide (CO₂).
Water spray.

Protection measures and instructions Wear self-contained breathing apparatus and protective suit.

SECTION 6 Accidental release measures

Environmental precautions No special environmental precautions required.

Methods for cleaning up Shovel into suitable container for disposal.

Exposure controls/personal protection: See chapter 8

Revision date 23.03.2016	Version 1.00	Print Date: 12.12.2017	Page 3 of 10
--------------------------	--------------	------------------------	--------------

Polypropylene ESV265

Version 1.00

Revision Date 23.03.2016

SECTION 7 Handling and storage

Safe handling advice No special handling advice required under normal conditions. Molten polymer: Wear heat-resistant protective equipment.

Advice on protection against fire and explosion Keep away from heat and sources of ignition.

Storage Keep away from direct sunlight. Keep away from heat.

Further information on storage conditions Keep in a cool, well-ventilated place.

SECTION 8 Exposure controls/personal protection

Engineering measures

If user operations generate dust, fumes or mists, use ventilation to keep exposure to airborne contaminants below the exposure limit. Use only in an area equipped with explosion proof exhaust ventilation. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Ensure adequate ventilation.

Personal protective equipment

Eyes No eye protection is required under normal conditions. Molten polymer: Wear safety glasses with side shields.

Skin No special body protection is required under normal conditions. Molten polymer: Wear heat-resistant protective clothing.

Inhalation No personal respiratory protective equipment normally required. In the case of respirable dust and/or fumes, use self-contained breathing apparatus.

Polypropylene ESV265

Version 1.00

Revision Date 23.03.2016

Hand protection No hand protection required under normal conditions. Molten polymer: Wear heat-resistant gloves.

Exposure Guidelines

Components Exposure limit(s)

PEL= Permissible Exposure Limits
 TLV= Threshold Limit Value
 EL= Excursion Limit

TWA= Time Weighted Average (8 hr.)
 STEL= Short Term Exposure Limit (15 min.)
 WEEL= Workplace Environmental Exposure Level

SECTION 9 Physical and chemical properties

State of matter Solid

Colour Translucent to white

Odour None to slightly waxy

Form Solid form

Boiling point/boiling range Not applicable

Flash point > 350 ° C Open cup

Lower explosion limit No data available

Upper explosion limit No data available

Solubility(ies) Insoluble

Melting point/range 130 - 165 ° C

Density 0.88 - 0.92 g/cm³

Polypropylene ESV265

Version 1.00

Revision Date 23.03.2016

pH No data available

Partition coefficient: No data available
n-octanol/water

SECTION 10 Stability and reactivity

Reactivity Stable under normal conditions. Continuous heating above 160 °C will lead to thermal oxidation.

Chemical stability Stable under recommended storage conditions.

Conditions to avoid Heat, flames and sparks.

Hazardous decomposition products Carbon dioxide (CO₂). Carbon monoxide. Acrolein formaldehyde-like

Materials to avoid Oxidizing agents.

Hazardous polymerisation Strong oxidizing agents

SECTION 11 Toxicological information

Further information No data available

SECTION 12 Ecological information

Ecotoxicity effects

Further information No data available

Polypropylene ESV265

Version 1.00

Revision Date 23.03.2016

SECTION 13 Disposal considerations

Waste Classification No data available.

Waste from residues / unused products Disposal can be done with normal domestic waste. Can be recycled. Can be incinerated.

Handling and storage: See chapter 7

Exposure controls/personal protection: See chapter 8

SECTION 14 Transport information

Further information Not classified as dangerous in the meaning of transport regulations.

SECTION 15 Regulatory information

U.S. Federal Classifications:

OSHA Hazards This material is non-hazardous as defined by the American OSHA Hazard Communication Standard.

SARA 311/312 No SARA Hazards

U.S. Regulated Ingredients:

Hazard information reporting

US. EPA Emergency Planning and Community Right-To-Know Act (EPCRA) SARA Title III Section 302
Extremely Hazardous Substance (40 CFR 355, Appendix A)

Components

CAS-No.

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

Polypropylene ESV265

*Version 1.00**Revision Date 23.03.2016*

Spill reporting

US. EPA CERCLA Hazardous Substances (40 CFR 302)

Components**CAS-No.****Reportable Quantity**

Not listed

Health

US. California Safe Drinking Water & Toxic Enforcement Act (Proposition 65)

Components**CAS-No.**

SECTION 16 Other information

All reasonable efforts were exercised to compile this SDS in accordance with the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). The SDS only provides information regarding the health, safety and environmental hazards at the date of issue, to facilitate the safe receipt, use and handling of this product in the workplace and does not replace any product information or product specifications. Since Sasol and its subsidiaries cannot anticipate or control all conditions under which this product may be handled, used and received in the workplace, it remains the obligation of each user, receiver or handler to, prior to usage, review this SDS in the context within which this product will be received, handled or used in the workplace. The user, handler or receiver must ensure that the necessary mitigating measures are in place with respect to health and safety. This does not substitute the need or requirement for any relevant risk assessments to be conducted. It further remains the responsibility of the receiver, handler or user to communicate such information to all relevant parties that may be involved in the receipt, use or handling of this product.

Although all reasonable efforts were exercised in the compilation of this SDS, Sasol does not expressly warrant the accuracy of, or assume any liability for incomplete information contained herein or any advice given. When this product is sold, risk passes to the purchaser in accordance with the specific terms and conditions of sale.
